

# Polycom® RealPresence® Mobile for Apple® iPad®

For use with Veraview Connect

## Get Started

Polycom® RealPresence® Mobile is your on-the-go solution for Veraview Connect. RealPresence Mobile gives you the option of connecting as a registered user, allowing you the full functionality of your Polycom-powered service.

**Note: Veraview Connect support**

For support with using the Polycom-powered service, contact your service provider.

## Install the Application

**To install RealPresence Mobile:**

- 1 From the Apple App Store, search for **polycom** or **video conferencing** to find the Polycom RealPresence Mobile application.
- 2 Touch **FREE**, then touch **INSTALL APP**.

**Note: RealPresence Mobile for iOS availability**

RealPresence Mobile for iOS v3.4 and later will be available shortly if it is not currently on the App Store.

## Connect as a Registered User

As a registered Veraview Connect user, you can provision the RealPresence Mobile client to access the directory service and additional features that are not available to unregistered users.

This section only applies if you are registered to Veraview Connect. If you are registered to another service, refer to [Connect as an Unregistered User](#).

**To connect to your meeting as a registered user:**

- 1 At the initial sign-in screen, touch the **Sign in with your cloud login**. switch to sign in with your service credentials.
- 2 At the second sign-in screen, enter the following information:

- User name: **<your video address>**  
Example: *john.doe@vconnect.vc*
- Password: **<your service password>**

### 3 Touch **Sign In**.

Your RealPresence Mobile client is connected to Veraview Connect.

### 4 Connect to your meeting with one of the following standard registered dialing conventions:

- Multipoint calls: **<john.doe.vmr@vconnect.vc>**  
These types of calls require **.vmr** appended to the user name of the video address that is being dialed.
- Point-to-point calls: **<john.doe@vconnect.vc>**  
These types of calls only require dialing a video address.

#### **User Tip: Dialing protocols for registered users**

If you are a registered user, you do not need to enable a specific dialing protocol for Veraview Connect. All calls using RealPresence Mobile as a registered endpoint connect via SIP.

## Connect as an Unregistered User

As an unregistered Veraview Connect user, you can dial into the service via H.323 using a full dialing string.

#### **To connect to a meeting as an unregistered user:**

- 1 At the initial sign-in screen, leave the email field blank, clear the **Register with Polycom** box, and touch **Next**.
- 2 At the second sign-in screen, leave all fields blank and touch **Skip sign in**.
- 3 Dial into the VMR via H.323: **<91.240.204.151##63257958>**.

## Use RealPresence Mobile for iPad

The RealPresence Mobile for iPad interface allows you to connect to video calls.

#### **Web Info: RealPresence Mobile**

For more support on using RealPresence Mobile, visit the [RealPresence Mobile Community](#).

# Dialing Screen

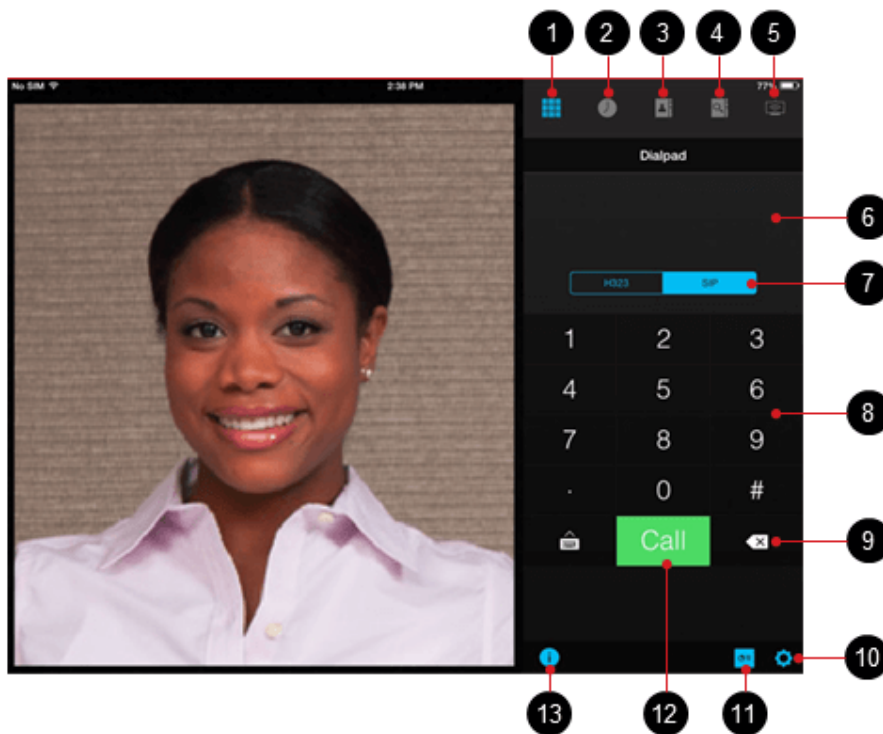

The dialing screen looks different depending on if you are using RealPresence Mobile as a registered or unregistered user. Some functions are only available for registered users.

### Note: Directory access

Directory access is only available with certain rate plans. Contact your administrator for more information.

## Dialing screen

Ref.	Description
1	Open the keypad
2	View recent calls
3	View local address book
4	Search corporate directory
5	SmartPairing
6	Display the number you entered

<i>Ref.</i>	<i>Description</i>
7	Select call type
8	Enter a number to dial
9	Delete characters you entered
10	Specify application settings
11	Content preview
12	Place a call
13	View your number

When you are not in a call, use the dialing screen to place calls, view recent calls, manage contacts, and exit the application.

## Place Calls

  - To type the domain for unregistered calls, touch  to open the virtual keyboard.
  - Touch  to erase a number.
- 2 Touch  to start the call.

## View Recent Calls

- 1 Touch .
- 2 Touch an entry to redial the VMR number listed.  
Your recent calls list can hold up to 100 entries.

## Add Contacts

- 1 Touch , then touch .
- 2 Enter the name of your contact in the **Display Name** field.
- 3 Complete any of the following fields (optional):
  - Title
  - Phone
  - Email
  - Location
  - Device Name

4 Complete at least one of the following fields:

- H.323 Extension
- H.323 Name
- SIP URI

5 Touch **Done**.

**Note: Local address book**

Adding contacts to the local address book is available only for registered Veraview Connect users.

## In-Call Toolbar

During a call, touch the icons on the in-call toolbar to perform a variety of call functions.

### In-call toolbar

<i>Ref.</i>	<i>Description</i>
1	Network connection status
2	Time elapsed
3	Hide or display local self-view
4	Mute or unmute your video
5	Switch cameras
6	Mute or unmute your microphone
7	End the call
8	Share content
9	Enable Far-End Camera Control (FECC)
10	Open keypad
11	Show or hide more icons

## Control Volume and Video

- Use the iPad buttons or on-screen audio slider to change the call volume.
- Touch  to mute or unmute your video.
- Touch  to mute or unmute your microphone.

## Import and Share Content

When you are signed into RealPresence Mobile as a registered user, you can send content to others in the call.

### User Tip: File sharing locations

You can save desired files to share on your local device or use Dropbox.

### To share content during a call:

- Touch  and do one of the following:
  - Touch **Local Documents** to select a local file from your device.
  - Touch **Photos** to select a photo from your device.
  - Touch **Website** to input a URL you want to share (if applicable).
  - Touch **Dropbox** to select a file from your Dropbox files (if applicable).
  - Touch **Whiteboard** to open an empty whiteboard.  
Using the whiteboard feature, you can draw on your iPad screen with your finger or a touch pen.
  - Touch **Blackboard** to open an empty blackboard.
- While showing content, you can pinch your screen to zoom it in or out.

### To stop showing a content file during a call:

- » Touch .

### Note: Content sharing

Registered and unregistered users can view content sent by others in the call, but only registered Veraview Connect users can share content with others.

## End a Call

- » Touch  to end a call.
